Other news

Toilets- We have been having some problems with children’s use of the toilets recently. We think the problem is that boys, in particular, may be waiting till the last minute before going to the toilet and then being in such a rush that their “aim” is not accurate. We will manage things at our end but if you could also talk to your children (boys, especially) about trying to think ahead or taking greater care with aim we would be very grateful for your support.

Walking to school—Thank you for supporting our efforts to encourage walking to school. We are now proudly wearing our Bronze travel plan badge .

With this status I have been able to apply for a TfL grant for scooter storage.

With the news of poor air quality this week please can I ask that you help protect children’s health and do not leave your engine running near school.

The Residents’ parking zone comes in to force on Monday. I do not know how actively it will be enforced...

Please do not park on the zig zag lines instead– that is against the law.
