

Dear Families,

Unbelievably we have reached the summer term and good weather. Welcome back!

Health update

From this term we will no longer be accepting cakes as birthday treats. If you wish to share a treat please make sure it is either fruit or nut free sweets that are suitable for vegetarians. Teachers have been told to turn any cakes away.

The school is having a new roof installed during the summer months. This includes insulation which will reduce our carbon footprint and save on heating costs. The project is funded by LB Newham

The project started during the holidays and good progress has been made already.

There will be some scaffolding and a small compound on site. This should not cause any interference with school life.

We have experience of building works and will make sure everything is well managed.

PTA Events

“Best Disco ever” ... DJ Dog you were amazing!

The back to school Quiz Night was a great success and a very competitive event!

The evening, including raffle and silent auction raised a whopping £1,000!

The small staff team will be revisiting our geography and history books and will stop listening to radio 4 in an attempt to move up the rankings for the next quiz in the Autumn term.

Thanks for the PTA and for Toufik, our quiet hero who helps set up and pack away after all of the fab events!

We have received a wonderful box of books from the Raloo campaign. They will be added to the library after the holiday.

The clothing collection raised £244.00.

The money raised last term will pay for the return of “Steve the community gardener” this term. He will come to school on Thursdays and help the children improve our environment, learn about growing and caring for plants and nature and have a lot of fun learning- a perfect recipe.

To stretch funds we will be asking for donations of compost and seeds or plants. If you could plant some seeds at home ready for planting we will love to take them off your hands when ready to plant out.

We have many more planters than when Steve was last here so plenty of space to fill

Thank you Sarah & Staff
