

Dear Families,

Welcome back!

The children have settled in very quickly to their new classes and routines. They have all grown over the summer! (as have the hens- Melodie, Sunshine, Little My, Daria, and Pauline)

In response to your feedback Teachers will be available for queries and comments from 8.55am. They will be in the playground for you to speak to before school officially starts at 9am. Classroom doors will open at 9 and close at 9.05. If classroom doors are closed please come in through the front entrance where you will be asked to register your child on the computer.

Clocks will be synchronised for Monday morning!

Next week we welcome our new Reception children from Tuesday onwards.

Have a lovely weekend

Sarah & Staff

Meet the Teacher

Back by popular demand, an opportunity to meet your child's new teacher...

Join other parents to hear about our approach to learning, about how we support children to develop and stretch their learning muscles, about the daily routine and about how you can help at home.

When?

Year 1 Friday 13th 2.45pm (postponed from this week due to short notice)

Year 2 Friday 20th at 2.45

I hope you will be able to join us for these sessions. We will put any documents on the school website and can send them to you by email at your request.

Autumn is coming

We are having a focus on curiosity and exploring.

To help with this can we please ask you to collect things to add to our stash of interesting things to explore?

We would love

conkers, stones, pine cones, leaves, sticks, shells,

buttons, beads, plastic bottles tops, empty egg boxes (for when the hens begin to lay), interesting shaped packages and containers,

Safe Streets

The consultation about closing Sebert Road at school drop off times has closed and indications are that it received a very positive response from residents and parents. If it goes ahead it is likely to begin from November. Watch this space...

In the meantime we will continue to "remind" you about walking to school and parking safely and legally because it is important for your child's health- cleaner, better air and more exercise, building up muscles and stamina.
